

## Series 2000 Belt Conveyor

**Designed to move your seed without damage.**

The enclosed frame design reduces dust and virtually eliminates spillage!

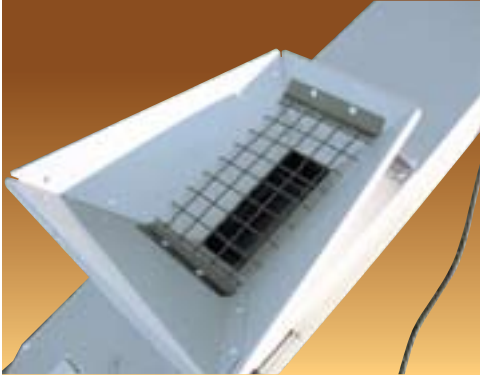

Designed and Built  
by  
Third Generation  
Kansas Farmers

- Each unit features quick release inspection panel, and belt adjustments that allow you to adjust belt tension, and make tracking adjustments without lowering your conveyor
- The adjustable undercarriage and removable towing hitch means you'll be moving seed where you want, when you want, faster and easier than ever!
- Available in lengths from 20' to 55'
- 2" high cleats every 9" allows the conveyor to run at steeper angles with less roll-back
- Each unit comes with undercarriage, 5 hp motor, and electrical cord.

*Save Time, Labor and Cash with the Series 2000 Belt Conveyor*

## Move seed easily and gently
